

# DIPLOMA IN CREATIVE MULTIMEDIA

N/523/4/0237

## PROGRAMME BRIEF

Creative Multimedia is a three-year diploma programme that familiarizes students with overall process of producing digital work art, particularly in 2D and 3D.

It emphasizes on nurturing creative young minds of Malaysian youth to the workflow of media during pre-production stage, production and post-production stages, including sketching, drawing, modelling, texturing, animating and rendering of 2D and 3D animation work piece. Students will be actively exposed in creative design and animation, with state-of-the-art software and hardware for producing short multimedia animation, together with narration using industry-standard recording studio for sound editing and mixing.

The programme also nurtures the students' awareness as digital entrepreneurs, promotes thinking and problem-solving skills, and life-long learning.
