

Our Business

Founded in 1992, German-Malaysian Institute (GMI) is the turf for industrial skill training solutions that has enabled Malaysia to thrive with globalization. GMI is also proactive and responsive to the demands of the industry and, more importantly, is inducing Malaysia's Vision 2020 of becoming an industrialized nation by providing highly skilled and knowledgeable manpower.

We possess core skills in every aspect of industrial skill training programmes with one aim – to be a dynamic technical institution providing *Training for Advanced Technology* to deliver well-qualified and trained workforce.

To date, GMI offers numerous 3-year full-time diploma programmes, German A-Level Preparatory Programme (GAPP) and Technical Teacher Training Programme. In maintaining our competitive edge, we also offer short-term technology-related courses, industrial projects and consultancy.
